About The Coalition

Indonesian Civil Society Coalition For the International Criminal Court is a group of civil society organizations that campaigns for the ratification and implementation of the Rome Statute on the International Criminal Court. It was established in Jakarta in 2006. Being proclaimed again in the National Action Plan on Human Rights 2010-2014 (after being proclaimed on the Human Rights National Action Plan 2004 – 2009 that it would be ratified in 2008), the ratification of the Rome Statute will become a measurement for the seriousness of Indonesia in upholding international justice regime and stopping impunity.

International Criminal Court, which is a mechanism of an international justice system becomes one urgent need to stop impunity for various gross human rights violations that have not been solved and to prevent the occurrence of gross human rights violations in the future. To this day, 121 countries have become the State Parties of the Statute and only eighteen out of those countries are from the Asia Pacific region. Ratification by Indonesia will for sure give a positive precedent and encouragement for other countries in Asia.

Some activities that have been conducted by the Coalition since 2006 and mostly focused on the writing and completion of an Academic Paper and a Draft on the Ratification of the Rome Statute; dissemination of information on the importance of the Rome Statute ratification for the fulfillment of justice for victims and the improvement of the legal system in Indonesia; and carrying out advocacy works for the executive and the legislative branches to encourage the government to pass necessary regulations to realize the ratification of the Rome Statute on the ICC.
